In company with her older brother, she was playing in the back yard at her home, when the children built a bonfire, and while playing about the fire the little girl's dress caught fire. She screamed for help, but before assistance could reach her, her ciothing was entirely burned off her body and she was horribly burned about the chest, face and limbs.

How to Form an Idea of This Great Amount.

(St. Louis Post-Dispatch.) Three million dollars means the saving of \$50,000 a year for sixty years. To accumulate \$3,000,000 in thirty-three years a man would have to save \$30,908 annually over and above all expenses. This means a net saving of \$249.05 a day, \$10.38 an hour, or more than 18 cents each minute, for thirty-three years.

To a man emproved at \$1.50 a day, \$3,006,000 would mean labor for 2,000,000 days, of 2,739 years.

Any render of this can send me 25 cents in stamps or silver, and I will send them a trial bottle of my world-renowned Face Bleach, securely packed in plain wrapper, senied, all charges prepaid. An opportunity to test so famous a remedy at so slight a cost is seldom offered, and I trust that the renders of this will take advantage of it at once, as the offer may not be repeated.
